

# RITZ GLIDER

## BENEFITS

**Norwegian quality.** All IMG products meet the highest quality standards. The reclining mechanism with integrated footrest is made by the largest specialized mechanism supplier in the world. The construction is based on a hard wood and steel frame with IMG's unique molded foam.

**Many unique comfort functions.** The IMG Relaxers offer five different built-in functions:

- Swivel
- Effortless reclining and adjustable back rest angle
- Foldable footrest
- Gliding / rocking function
- Adjustable head and neck support

**Cold-Cure Molded foam.** This space-age material encases the interior steel frame and sinuous springs, allowing for body-friendly curvatures to be covered with glove-fitted upholstery. Guarantees absolute comfort and durability.

**Luxurious feel and touch.** A layer of soft high resilience polyurethane foam with fibers ensures a luxurious feeling and extra softness.

**Adjustable head and neck support.** Exclusive adjustment system that allows your head and neck to rest in an infinite number of comfort positions. It can easily be adjusted by a handgrip.

**Warranty.** Ten years on frame. Five years on mechanisms, molded foam cushions and base. Two years on leather and fabric covers.
